

Master in Cellular  
and Molecular Biology

University of Torino

*Cancer Genetics Course aa 2022-2023*

*Seminars 20-01-2022*

## **Hereditary cancer syndromes as models for colorectal tumorigenesis**

3:30-4:15 PM

**"LINE1 and epigenetics changes: from *MUTYH*-associated lesions to sporadic colorectal cancer"**

*Dr. Carla Debernardi,*

*Specialist in Statistical and Epidemiology  
Ph.D Student in Medical Genetics  
Department of Medical Sciences  
University of Turin  
carla.debernardi@unito.it*

4.15-5:00 PM

**"Cancer molecular mechanisms: a lesson from hereditary DNA repair syndromes"**

*Enrico Berrino, PhD*

*Research Assistant  
Department of Medical Sciences, University of Turin  
Pathology, FPO-IRCCS, Candiolo  
enrico.berrino@unito.it*
